INSIGHT

CENTRALIZED COMMUNICATION AND MANAGEMENT SOLUTIONS FOR REMOTE WORKERS

INTERACTIVE ENTERTAINMENT PROFESSIONALS

iEP® | INSIGHT

The COVID pandemic permanently changed the way people work. Not only are governments more willing to enforce remote work mandates, but employees are more likely to desire it. Modern video game companies need ways to work with their employees beyond traditional email based systems.

IEP offers a set of tools to help fill the gaps in how companies work with their remote employees. These include new ways to: manage performance, distribute notices/policies, on-board/train employees, and deliver critical/emergency communications.

The IEP INSIGHT system provides location and team based reporting, notice-read confirmations, and audit trails to improve to visibility into your distributed workforce and aid with regulatory and compliance activities.

Our systems work alongside your existing HRIS, LMS, and other IT services and support single-sign on for easy implementation.

MANAGING REMOTE WORKERS REQUIRES REALTIME INSIGHT AND COMMUNICATION SYSTEMS

- Available On Mobile, Tablet & PC

- Employee Benchmarking

- Centralized Employee Policies

- SMS Notifications For Critical Notices

- Instantly Update Files As Needed

- Rapid Document Searching

- Granular Permission Systems

- Individual, Team & Location Analysis

- Audit Logs & Usage Reporting

PERFORMANCE MANAGEMENT

Improve performance management of your remote workforce with a secure cloud based document repository. Search, filter, and access policies, procedures, run-books, training, and more: anywhere, any time.

REMOTE ON-BOARDING

Augment existing HRIS systems for remote on-boarding of new hires with training content or LMS services. Maintain a single point of truth for new hire documentation and simplify distribution of new hire information with advanced content packaging systems.

POLICY CHANGES & COMPLIANCE

Centralize employee and government policy or regulatory documents and provide real time notification of changes to employees. Validate employee receipt and acknowledgment of review. Generate reports for compliance, risk management or auditing needs.

KNOWLEDGE VALIDATION

Develop and distribute online based knowledge validation tests on everything from work-from-home policies to departmental skill-sets and advancement. Generate real-time reports to ensure employee completion and comprehension and identify any potential risks dormant within your workforce.

EMERGENCY RESPONSE

Instantly bulk email and text message employees for emergency communications and response needs to ensure rapid communication to individuals, teams, or geographic locations.
